PPL 2A47 covers an area excised from OML 53 in accordance with the Petroleum Industry Act (PIA) 2021. PPL 2A47 is situated onshore land terrain in the eastern Niger Delta.

Available data include 1295 km<sup>2</sup> of MegaSurvey 3D and one well - Amara-1 which was drilled by Chevron between January 13 and January 31, 2000 to a total depth of 7,766 feet (MD). The well penetrated three (3) oil bearing sands totaling 448 feet gross pay. Amara-1 was subsequently plugged and abandoned. OML 53 is currently operated by Seplat Energy.
