

## Quality Policy

---

*"TGS is committed to quality. This involves creating value, defining effective procedures, taking responsibility for the work, consistently delivering the highest standards, meeting our customers' expectations, and applying a process of continual improvement. Quality is an integral part of our commitment to providing best-in-class products and services."*

We will strive to:

1. Comply with laws, regulations, and industry-wide best practices.
2. Be perceived by our customers as a company that can exceed expectations.
3. Use clearly defined methodologies to improve our products and services.
4. Establish and communicate meaningful quality objectives and performance targets.
5. Invest in both technology and people to provide our customers with innovative and cost-effective solutions.
6. Routinely evaluate our processes for their effectiveness and improvement opportunities, while eliminating waste or errors.
7. Make quality a core responsibility of every staff member.
8. Maximize employee contributions through effective leadership, motivation, and training.
9. Engage vendors, contractors, and suppliers to have their own internal quality standards, programs, and practices.
10. Work with our critical contractors and suppliers to ensure prompt delivery of their services; such that they support and not hinder our operations.
11. Regularly monitor operational performance, and review the effectiveness of corrective and preventative actions to ensure that lessons learned are appropriately applied to the business.

This policy provides a framework for setting quality objectives, and it shall be reviewed on a regular basis to ensure ongoing suitability and effectiveness.
